EVS:

The curriculum for primary students provides a holistic education that meets their evolving needs by promoting deep understanding through conceptual learning and encouraging hands-on experiences alongside real-life applications. It fosters empathy and sensitivity while teaching essential life skills and values, promoting initiative and decision making. Supporting learning with interactive worksheets and teacher guidance, this curriculum prepares young learners for academic success and personal growth through varied themes such as:

- My Body
- My School
- Neighbourhood and Community
- Plants, Animals, Birds, and Insects
- Manners and Values
